

B1. SINGLE and TWO - POCKET DOUGH DIVIDER

BVDS 1112 NRB and BVDS 2324 NRB

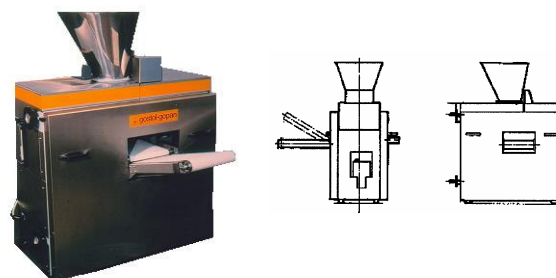

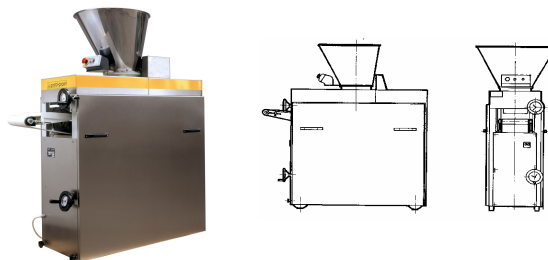

This dough divider is designed for dividing wheaten, wheaten-rye and other mixed doughs, containing at least 50 % of wheaten flour. In spite of variable properties of dough, a high dividing accuracy is assured by proper design of the machine. This machine can be used for dough dividing in semi-automatic and automatic lines.

The two pocket BVDS 2324 machine differs from the single-pocket BVDS 1112 machine by having two pockets (chambers), allowing dough dividing in either one or both pockets.

The dividing and sucking chambers of BVDS 1112 and 2324 are made of NI-resist material, while the pistons are made of bronze.

Advantages:

- Continuous adjustment of dough weight and number of dough pieces.
- Volumetric dough dividing principle assures high quality of baked products.
- All parts in direct contact with dough are made of alimentary irreproachable materials.
- Sturdy construction and high quality materials assure a long life of the machine.
- Simple cleaning and maintenance.
- Machine is movable on castors.

Characteristics:

MACHINE:	BVDS 1112 NRB	BVDS 2324 NRB
Dividing with single pocket:		
Machine capacity (pcs/h)	550-1400	550-1400
Scaling range (g)	200-1200	1000-2400
Dividing with two pockets:		
Machine capacity (pcs/h)	---	1100-2800
Scaling range (g)	---	250-1200
Oil consumption for 1000 pcs/h (l/h)	0,5	0,6
Installed power (kW)	0,78	1,13
Dimensions:		
dimensions of the machine with standard hopper(mm)	1410x470x1650	1305x780x1585
hopper width (mm)	550	1380
dimensions of packed machine (mm)	1600x850x1850	1450x1080x1770
machine weight (kg)	500	565
gross machine weight (kg)	570	650

B1. SINGLE and TWO - POCKET DOUGH DIVIDER
BVDS 1112 NRB and BVDS 2324 NRB

Basic version of BVDS 1112 includes:

- hopper 50 l,
- stainless steel plating

Basic version of BVDS 2324 includes:

- hopper 50 l,
- stainless steel plating
- oiling of outlet conveyor

Options:

- hopper 125 l
- hopper 160 l
- hopper 250 l (with legs)
- scraper for soft doughs
